Microtek College of Management & Technology,Varanasi May 2024 – May 2027
Bachelor of Computer Applications (BCA) Varanasi, India

COURSEWORK / SKILLS

- MERN Stack Developer
- Data Structures & Algorithms
- Web Developer
- Back-End Developer

PROJECTS

E-Commerce
- Developed a full-stack e-commerce web application using HTML5, CSS3, React.js, Node.js, Express.js, and MySQL.
- Implemented product listing, search & filtering, shopping cart, and JWT-based authentication.
- Built RESTful APIs for user and order management with responsive UI and database integration.

Chat With PDF
- Developed an AI-powered Chat With PDF application using React.js, Node.js, Express.js, Google Gemini API, and Qdrant Vector Database.
- Implemented PDF upload, text extraction, vector embeddings, and semantic search using the RAG architecture.
- Designed a responsive chat interface with Markdown rendering, dark/light mode, toast notifications, and auto-scroll.

Coaching Website
- Developed a responsive coaching institute website to showcase courses, faculty, and student resources.
- Integrated admission inquiry forms and structured course information for better user engagement.
- Optimized UI, mobile responsiveness, and website performance for a seamless user experience.

EXPERIENCE

Varanasi Software Junction Mar 2025 – Jul 2025
MERN Stack Developer Intern Varanasi, India
- Worked on live client projects including a Medical Store Management and Car Booking using the MERN stack.
- Developed RESTful APIs, implemented authentication, and managed database integration for backend solutions.
- Built responsive web applications and Android apps ensuring smooth UI/UX and optimized performance.
- Contributed to a Quiz Web Application with real-time score tracking and user management features.

A2 Developer Aug 2025 – Dec 2025
MERN Stack Developer Intern Gurugram, Haryana
- Worked on live projects including School Management, BillMitra, Glam, and VidyaMint platforms.
- Developed and maintained full-stack features using the MERN stack, implementing dashboards and business logic.
- Built and optimized REST APIs, improved database performance, and seamless frontend-backend integration.
- Collaborated with team members to enhance UI/UX, fix bugs, and deliver scalable, production-ready solutions.
